## **Diagnosing Heart Disease With Ultrasound Imaging**

The value of diagnostic ultrasound lies in the wealth of accurate information it can provide about the heart without risks to the patient. Ultrasound provides a window into the human body through which physicians can see certain manifestations of disease that could otherwise go undetected. Ultrasound imaging helps cardiologists diagnose heart disease and allows cardiac surgeons to actually see the heart before, and after they operate, making cardiac care safer and more effective.

Saline Memorial Hospital's state-of-the-art cardiac ultrasound imaging system has an array of sophisticated diagnostic capabilities, each of which provides valuable diagnostic information. The ultrasound helps physicians measure the size and function of the contracting heart, study the motion of the heart valves, and evaluate inner cardiac blood flow. Saline Memorial's cardiac ultrasound is extremely accurate with images and precise measurements that provide physicians with more information than they ever had before. This equipment is unsurpassed in the technical area, and nothing better is currently in the Central Arkansas area. With ultrasound imaging, diseases can be diagnosed earlier and with greater confidence without exposing patients to more complex diagnostic procedures.

*Mother*

*I cannot say, and I will not say,  
That she is dead – she is just away!  
With a cheery smile, and a wave of the hand,  
She has wandered into an unknown land,  
And left us dreaming how very fair  
It needs must be, since she lingers there.  
And you – O you, who the wildest yearn  
For the old-time step and the glad return,  
Think of her faring on, as dear  
In the love of There, as the love of Here,  
Think of her still as the same I say,  
She is not dead – She is just away!*

*James Whitcomb Riley*

*My Mother's Eyes have the warm sweetness  
of forget-me-nots  
When I look deep into them, I am held tight by her love*

*Her hands have coolness of a silver birch tree in the spring,  
Before the sun has poured heat into its gentle vigor  
When they touch me, peace fills my heart.*

*My mother's breast is soft and fragrant with  
the loveliness of violets,  
Deep-hidden in calm wood;*

*When I lay my head there,  
I cannot believe that there is  
Anything in the world but love.*

Judy Walton Carter, age 55, of Benton passed away Monday, September 6, 2010 at Saline Memorial Hospital. She was born on January 27, 1955 in Little Rock, Arkansas to the late Winfred Poe "Doc" Walton and Jane Ross Walton. She was a beloved mother, wife, aunt and sister, a friend to many. She was a skilled cardiac nurse and echo tech. These skills enabled her to express her care and concern for people.

Judy was an avid reader, loved music, photography and a good laugh. She also loved keeping in touch with family, friends and those numerous people who just needed someone to listen and to care.

We will dearly miss you Judy.

*Life*

*Life is like a candles glow,  
It first burns high, then low  
In time it even flickers out-  
Do you know what life is all about?*

~Jane Ross Walton~

## The 23rd Psalm

The Lord is my Shepherd; I shall not want.  
He maketh me to lie down in green pastures:  
He leadeth me beside the still waters.  
He restoreth my soul:  
He leadeth me in the paths of righteousness for His  
name' sake.

Yea, though I walk through the valley of the shadow  
of death,  
I will fear no evil: For thou art with me;  
Thy rod and thy staff, they comfort me.  
Thou preparest a table before me in the presence of  
mine enemies;  
Thou annointest my head with oil; My cup runneth  
over.

Surely goodness and mercy shall follow me all the  
days of my life,  
and I will dwell in the House of the Lord forever.
